To whom it may concern,

I can confirm that Mestec GmbH of Franz-Josef-Delonge-Str. 12, 81249 München, Upper Bavaria are an authorised partner of Viavi Solutions Ltd.

Mestec and Viavi have had a very close working relationship over the years, in addition to product support responsibilities' moving to Mestec from Viavi over the years, employees of Viavi have transferred to Mestec as part of a strategic business decision as recently as July 2019, Mestec was selected as a strategic partner to Viavi due to their experience, quality and market knowledge.

As part of relationship with Viavi, Mestec work to Viavi's quality standards ensuring compliance with the product specifications and limits.

All calibrations are carried out following Viavi's procedures and adherence to the specifications, ensuring that Viavi's high quality standards are mirrored by Mestec.

Although Viavi have transferred business to Mestec we maintain relationships with these customers and we continue to receive positive feedback which will encourage Viavi to add further business transfers to Mestec if the situations should arise.

I hope this clarifies Viavi's relationship with Mestec but if there are any further questions then please do not hesitate to contact me.

Regards,

Mark Routledge
